STAND OUT FROM THE COMPETITION

Top Brands. Best Prices. Free Lifetime Support.

We offer high-performance, competitively priced, limited distribution products with an aggressive discount structure for dealers. Inside this catalogue are some of our best-sellers and newest additions to our lineup of quality security products. Are you looking for more? Give us a call to discuss your project or browse online.

LG Life's Good

Our premium line from LG is available in most CCTV categories. Not only does it come with a name that everyone recognizes, but it is one of the best all-around product lines on the market.

3S

3S is a premium IP camera line that includes 2 megapixel camera models across all form factors with 5 megapixel options available soon.

DIGIOP

DIGIOP develops commercial-grade IP NVRs and hybrid DVRs featuring the DIGIOP ELEMENTS video and data management system.

SOLSTICE™

Our range of 16-channel embedded IP NVRs from Solstice offer exceptional capabilities for an unbeatable price.

BLACK

Our commercial-grade house brand dealer line comes with 3-5 year warranty. It is a proven line of analog products and includes HD analog for customers not ready to move to IP.

ACTi · IQinVision · SONY

On top of offering differentiated products, we are also master distributors for ACTi and IQinVision and a reselling partner for Sony.

1 — *NEW* LG Monitors
- LED Widescreen Full HD Capable Monitors
- Designed for 24/7 Continuous Operation
- Native Display Resolution 1920 x 1080
- 178° Viewing Angle in Portrait and Landscape Mode
- RGB, DVI, HDMI and DP

2 — *NEW* Solstice NVR Turn-key Systems
- Compatible with Major Camera Manufacturers
- Web-based - no need to install software on your computer
- Compatible with the most popular internet browsers
- Pre-installed surveillance-grade hard drive

3 — *NEW* Megapixel Lenses
- High image-quality monitoring with optical performance supporting 5 megapixels
- Compact and lightweight design
- Designed to maximize optical performance with high-accuracy aspheric lens

4 — *NEW* DIGIOP ELEMENTS 8.5
- Added Advanced Analytics
- User Interface Lockout
- Hosted Enterprise
- Multiline Capture
- Simultaneous Multi-server Software Updates
- DIGIOP GoMobile

5 — *NEW* Turn-Key Systems
- Indoor/Outdoor 2.1 Megapixel Cameras included along with 1TB standard! (SYHD4)
- Affordable Turn-key IP Video Surveillance Systems Featuring our Solstice 16-channel NVR
- All system components are customizable!

New! Affordable Turn-key IP Complete Video Surveillance Systems

Featuring our NEW Solstice 16-channel NVR!

Each System Includes:

- Web-based - no need to install software on your computer
- Compatible with the most popular internet browsers, including Firefox, Chrome, Safari, and Internet Explorer
- No licensing fees or other hidden fees
- Green unit (low power consumption)
- Pre-installed surveillance-grade hard drive
- Smartphone compatible
- Learn more about the 16-Channel Solstice on page 9!
- Includes power supplies, 100-foot high-grade integrated video/power cables, Quick-start guide, Warning sticker and Comprehensive instruction manual
- One year manufacturer's warranty on all parts (unless otherwise noted.)

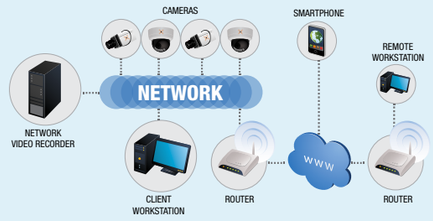
Interested in IP? Start Here.

IP systems are now the first choice for anyone considering a first security system or upgrade. Security Cameras Direct offers everything from powerful, complete IP solution of integrated cameras, recorders, and software and powerful video management tools and analytics, to individual components with expanded compatibility that allow you to put together your own system and grow as you go.

Top 10 Reasons to Consider IP

- Easy to Use
- Higher Resolution
- Lower Cable Cost
- Future-Proof
- Creates Efficiencies
- Intelligence
- Secure Transmissions
- Reliable and Redundant
- System Integration
- Infinite Distance

How Does IP Video Security Affect My Network?



What's difficult to see in this diagram is that unlike analog, where each camera requires its own cable, getting the IP network going requires only one cat5/cat5e or cat6 cable, using the POE switch to run the cameras and send data over the same cable.

Build Your Own Hybrid or IP Network System

Call our specially trained team of sales consultants and system engineers to help you customize a solution to fit your needs!

We've made it easy for you to take advantage of the countless benefits of the latest IP, megapixel and video management technology. Our hybrid and network IP systems are ideal for virtually any application, including retail stores, restaurants, banks, small corporate facilities and similar applications.

Choose a video recording system

All systems include DIGIOP ELEMENTS™, our intelligent video dashboard, that allows you to easily view and manage live and recorded video, from your IP or analog cameras, from any remote location.

To learn more about the many features and benefits of DIGIOP ELEMENTS™, please see page 12 ▸

These "Grow as you Go" platforms give you the power to add IP or Megapixel cameras, sync your video with a point of sale (POS) system, or enable video analytics as you are ready.

Learn more about these DVRs on page 14 ▸

Choose a Monitor

For a monitor, we recommend one of our security-grade LCDs, designed to withstand the unique demands of 24-hour surveillance.

Learn more about our monitors on page 43 ▸

Choose your Cameras

Add IP Cameras

DIGIOP®
Intelligence Inspired

Video-Enhanced Business Intelligence

Seamless Integration of your video and Data Intelligence

DIGIOP ELEMENTS™ is a ground breaking Video-Enhanced Intelligence Platform that provides a single, user-friendly interface to the critical video and data intelligence you rely on.

DIGIOP Elements™ Simple Licensing

- Non-expiring licenses
- No recurring fees
- No hidden fees
- System-based upgrades for future enhancements
- With DIGIOP, you only pay for what you need, and only pay once

DIGIOP Elements™ Features & Benefits

Unified Dashboard

- Quickly Access Video
- Customizable interface for every user
- Multi-monitor support
- See any system element the way youwant
- View all system components in one spot
- Close-up, high-resolution images
- Ensure system up-time

Business Intelligence

- Bring data from various sources (eg. POS, ATM, access controls, cameras) together in one place
- Create reports and triggers based on data from all sources

Remote Control

- Web-based management of your network
- Control user permissions and settings
- Get back up and running quickly

Powerful Search & Playback

- Snapshot video segment viewing
- Jump to exact dates and times
- Catch recent action quickly
- Find exact moments of video
- Quick export when evidence is required
- Efficient searching
- Re-use your typical search parameters
- Efficient file management

DIGIOP Elements™ 8.5 New Features

Added Advanced Analytics

visual graphical displays for queuing, services times, and heat and dwell map intelligent metrics. This easy to read format contributes to better understanding of data and improves decision making in real-time.

User Interface Lockout Mode

Allows administrators to restrict access to DIGIOP® Connect software being run on the local server, preventing unauthorized users to change settings or exit the software when it's being used for local display.

Filter Query Editor

defines custom filter queries to display 'live' video and data in real – time. This feature allows efficient searching thru data, by using terms like "contains", allowing users to select the specific data stream and have a "Google-like" search of that customized data field.

Filter Query Editor

defines custom filter queries to display 'live' video and data in real – time. This feature allows efficient searching thru data, by using terms like "contains", allowing users to select the specific data stream and have a "Google-like" search of that customized data field.

VIDEO ANALYTICS EXTENDS THE VALUE

OF TRADITIONAL SURVEILLANCE SYSTEMS BY ENABLING USERS TO:

- Count people entering or exiting an area
- Observe and analyze customer behavior and traffic patterns
- Evaluate merchandising effectiveness
- Determine area occupancy

Customizable Interface

- **Create unlimited windows** – use a 2x2 grid, or layouts that display up to 36 cameras on a single tab.
- **Combine views of multiple systems** – seamlessly integrate cameras from independent systems on a single display
- **Set multi-site system tours** – easily program your software to review multi-site displays from a central location
- **View live and recorded video** – simultaneously display and manage live and recorded video in separate windows

Powerful Searching & Playback

- **Instant Replay** – a single click, instant rewind of video from the last 1, 2, 5, or 15 minutes.
- **Thumbnail Search** – quickly navigate your recorded video by viewing thumbnails from the start of motion-based segments.
- **Quick Export** – single touch save and export tools allow you to easily distribute your recorded video or image clip.
- **Calendar Search** a powerful search feature that lets you enter the exact date, time and duration that you want to review and use a precise time line slider to examine the time period you've defined
- **Auto Enlarge** Simply mouse over thumbnails to enlarge the frame of the video to identify the desired part of the video.

Digital Zoom Capabilities

- **Live & Playback** – easily zoom in on any area of interest in live-view or playback mode.
- **Analog, IP & Megapixel Cameras** – simply enlarge the area where you want more detail . . . results are only limited by your camera's resolution.

See our DIGIOP Online Demo

MORE THAN JUST SURVEILLANCE

Combine the power of real-time and recorded video with information from third-party applications and back-office systems, delivering video-enhanced business intelligence for operations, marketing and information technology.

Designed with a scalable, easy-to-manage architecture, these DIGIOP™ systems can meet any challenge – from a four camera installation at a single location to an expansive global network of more than 5,000 locations. Providing a complete line of network and hybrid options, these systems can utilize your existing investments in analog cameras and allow for a seamless migration path to either IP or Megapixel cameras.

Backed by DELL

All systems feature purpose-built Dell hardware, specifically designed for long life-cycle support, providing the ultimate in long-term system stability and operational consistency. All systems are backed by Dell's award winning next-day service.

Indoor IP Mini Dome

- Superior image quality using progressive scan CMOS imager
- Delivers up to 30 FPS high res video @ full D1, 720 × 480
- Includes advanced features such as Digital Slow Shutter, Progressive Scan, and built-in Motion Detection.
- Supports 12 V DC power

Indoor IP Mini Dome Camera BLK-IPD101 **$249.99**

2.0 Megapixel Indoor/Outdoor Vandal-Resistant Dome

- Supports 12VDC or Power over Ethernet (IEEE 802.3af) for simplified installation
- HD image quality using progressive scan Aptina Micron CMOS imager, producing 2 Megapixel resolution
- H.264 compression technology for optimized image quality and lower bandwidth and storage requirements
- Advanced features include DSS, Extended Dynamic Range of 71dB, built-in Motion Detection and microSD

2.0 Megapixel Indoor/Outdoor Vandal-Resistant Dome BLK-IPD105M **$579.99**

D1 Digital D/N Indoor Dome

- Superior image quality using 1/3" Omnivision CMOS sensor
- Delivers up to 30 FPS high res video @ full D1, 720 x 480
- Features H.264 compression technology for optimized image quality
- Includes advanced features such as Digital Day/Night Digital Slow Shutter, Progressive Scan, and built-in Motion Detection

D1 Digital D/N Indoor Dome BLK-IPD103 **$399.99**

Four Channel IP Video Encoder

- Delivers up to 30 FPS high-res de-interlaced video @ full D1, 720 x 480
- Features H.264 compression technology for optimized image quality, and lower bandwidth and storage requirements
- Advanced features include RS-485 PTZ support, Audio & Alarm in/out and USB 2.0
- Comes equipped with 12V DC power supply

Four Channel IP Video Encoder BLK-IPE4101 **$999.99**

Compatible with 3S, LG & HD Cameras!

NEW! Megapixel / HD Lenses

Lens not included

H.264 Network IP Camera

- Superb image quality using 1/3" Sony DS CCD
- Delivers up to 30 FPS high res de-interlaced video @ full D1, 720 × 480
- Advanced features include True Day/Night, Wide Dynamic Range, Audio & Alarm in/out, and microSD support
- Supports 12VDC or Power over Ethernet (IEEE 802.3af) for simplified installation

H.264 Network IP Camera BLK-IPS101 **$579.99**

Indoor/Outdoor IP Dome

- Stunning image quality using 1/3" Sony DS CCD
- Delivers up to 30 FPS high res de-interlaced video @ full D1, 720 × 480
- Advanced features include True Day/Night, Wide Dynamic Range, Audio & Alarm in/out, and micro SD support
- PoE support (IEEE 802.3af) for simplified installation
- 2.8-10.5mm lens

Indoor/Outdoor IP Dome BLK-IPD102 **$599.99**

Single Channel IP Video Encoder

- Superior network IP video solution for enhancing traditional analog systems
- Delivers up to 30 FPS high res de-interlaced video @ full D1, 720 × 480
- Features H.264 compression technology for optimized image quality, and lower bandwidth and storage requirements
- Advanced features include RS-485 PTZ support, Audio & Alarm in/out, USB 2.0 and SD card support

Single Channel IP Video Encoder BLK-IPE101 **$379.99**

VCA ANALYTICS

Analytics Capable

VCA Analytics are included on all DIGIOP BLACK cameras. Analytics work right of the box and include a self-learning algorithm that automatically adapts to the environment. Start using VCA-PRESENCE right away, and call us to upgrade to VCA-ACCESS or VCA-PRO.

VCA-PRESENCE

General Presence Detection and Camera Tampering Detection

VCA-PRESENCE comes standard with all DIGIOP BLACK cameras and includes user-defined zones with alerts and event smart search.*

VCA-ACCESS

Count People & "Tailgating" Detection

VCA-ACCESS upgrade includes:*

- » VCA-PRESENCE, plus:
- » On-screen counters
- » Counting line
- » Tailgating
- » 40 zones

VCA-PRO

Advanced People-Tracker and Line-Crossing Counting

VCA-PRO upgrade includes:*

- » VCA-PRESENCE and VCA-ACCESS, plus:
- » Class & speed filters
- » Direction & dwell filters
- » Loitering
- » Abandon & object removal
- » Advanced people tracker

* Requires DIGIOP ELEMENTS™ Single Channel IP License + DIGIOP Data Single Channel Activation License for use with DIGIOP ELEMENTS™. Additional licensing may be required for third-party VMS.

MULTI-MEGAPIXEL CAMERAS from 3S

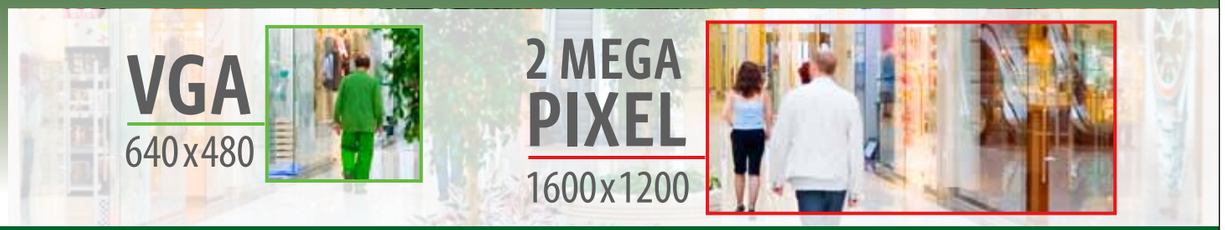
Compatible with Megapixel Lenses on page 17

- Multi-Megapixel Resolution
- 3D Noise Reduction
- H.264 Compression
- Motion Detection
- Tamper Detection
- Privacy Masking
- Versatile & Powerful
- Built-In IR

See all 3S products Online ▶

Multi-Megapixel Resolution

Cover more space or zoom in for more detail



3 YEAR WARRANTY

Dome Network Camera

See up to 50' in the dark with this outdoor, vandal-resistant dome

- 2.0 Megapixel resolution at 15 fps
- Built-in IR with a 50' range
- 3 mm - 10 mm varifocal lens
- Tri-axis design for easy installation
- Digital I/O for external sensor and alarm
- 2-way audio support
- 3D noise reduction for crystal-clear video
- Micro SD card support

ONLY **$469.99**

No need to add on IR illuminators or other forms of external lighting – this 3S 2.0 megapixel IP dome camera includes a built-in IR array, giving you 50' visibility in complete darkness. The adjustable varifocal 3 mm to 10 mm lens lets you get the exact shot you need. The camera is weatherproof and vandalproof with a tri-axis design for simplified installation.

N3072 **$469.99**

3 YEAR WARRANTY

ONLY **$549.99**

Bullet Network Camera

Built-in IR, varifocal lens, outdoor and vandal-resistant

- 2.0 Megapixel resolution at 15 fps
- 3 mm-10 mm Varifocal Lens
- Built-in IR array allows you to see up to 82' in total darkness
- Digital I/O for external sensor and alarm
- IP68 Weather Rating
- Video processing features include 3D noise reduction, motion detection, blind detection, and privacy masking
- PoE (Power Over Ethernet)

N6076 **$549.99**

Mounting Bracket for N6076 HMMB-G90004 **$19.99**

Box Network Camera

Features true day/night and 3D noise reduction

- 2.0 Megapixel resolution at 15 fps
- H.264/MJPEG Dual Codec
- Digital I/O for External Sensor and Alarm
- True Day/Night
- 3D Noise Reduction
- 2-Way Audio Support
- Micro SD card supported, up to 32GB (SD card not included)
- PoE (Power Over Ethernet)

N1072 **$299.99**

ONLY **$299.99**

3 YEAR WARRANTY

Lens not included

Mini Dome Network Camera

Includes embedded microphone

- 2.0 Megapixel at 15 fps
- 3.6mm Lens
- Built-in microphone
- Wide -angle 67 degree field-of-view
- H.264/MJPEG Dual Codec
- PoE (Power Over Ethernet)
- Video processing features include 3D Digital Noise Reduction, motion detection, blind detection, and privacy masking

ONLY **$269.99**

N9071 **$269.99**

3 YEAR WARRANTY

Day/Night Cube Network Camera

Embedded microphone and speaker

- 2.0 Megapixel resolution at 15 fps
- 4.3 mm fixed lens
- 0.1 lux
- 2-way audio with embedded microphone and speaker
- Video processing features include 3D Digital Noise Reduction, motion detection, blind detection, and privacy masking
- Integrated PIR sensor with motion-activated LED
- PoE (Power over Ethernet)

ONLY **$219.99**

3 YEAR WARRANTY

N8072 **$219.99**

Protect Your Analog Investment

3 YEAR WARRANTY

3 YEAR WARRANTY

ONLY **$219.99**

ONLY **$409.99**

Get the Benefits of IP from your Existing Analog System with these Encoders

Add the robust features of IP to your existing analog system, without having to purchase new cameras

- Supports up to 2 & 4 analog cameras
- H.264/MJPEG Dual Codec
- Up to D1 (704x480 @30fps) /CIF (352x240@30fps) on all channels
- 2-Way Audio Support
- SD Card Support
- RS-485 Remote PTZ camera control
- Digital I/O (4-Input, 4-Output)
- Video processing features include 3D de-interlace, 3D noise reduction, motion detection, blind detection, OSD, and privacy masking

S2071 **219.99** S4071 **$409.99**

Outdoor IP PTZ Camera

Intelligent Video Analytics

3 YEAR WARRANTY

- H.264/MJPEG Dual Codec & Streaming simultaneously
- Up to D1 (720x480@30fps)
- 23X/ 36X in Optical Zoom
- Mechanical ICR
- Pan 0.01°-180°/S, Tilt 0.01°- 90°/S, Preset 500°/S, Pan Tilt accuracy ± 0.07°
- IP66 Weather Proof

D1 23x Outdoor IP PTZ Camera N5071-23 **$1,399.99**
D1 36x Outdoor IP PTZ Camera N5071-36 **$2,099.99**

High-Res Outdoor IP PTZ Camera

Features intelligent video analytics and dual codec streaming

3 YEAR WARRANTY

- H.264/MJPEG Dual Codec & Streaming simultaneously
- Up to HD (1280x720 @25fps/1280x720@30fps)
- High Resolution of 600TVL
- Digital I/O for External Sensor and Alarm
- 18X in optical zoom
- Mechanical ICR
- 3D Noise Reduction
- 3GPP Supported
- IP66 Weather proof

720p 18x Outdoor IP PTZ Camera N5072-18 **$3,039.99**

New! LG Cameras and DVRs - Just Launched in U.S.!

WHY CHOOSE LG?

A TRUSTED BRAND
LG is one of the world's leading producers of consumer electronics, mobile communications, home appliances and security products. LG has 114 subsidiaries around the globe and a dedicated engineering team focused on developing their own proprietary technology.

CUSTOMER-DRIVEN DESIGN
LG's product design philosophy combines ergonomics with the latest cutting-edge technology to enhance functionality. LG's products are built on the principle that design plays an essential role in synchronizing technology with human needs.

INNOVATIVE TECHNOLOGY
LG continues to be a pioneer of innovation by incorporating advanced technology into their products, including their proprietary XDI-V chipset with 3-line filter and edge enhancement for video security solutions.

THE POWER OF EXTREME DYNAMIC XDI TECHNOLOGY

LG's innovative XDI ISP chipsets are engineered to process high-resolution images from 520K/610K sensors, applying 3-line filter and edge enhancement technology to deliver industry-leading image quality under a wide range of lighting conditions with true resolutions from 600 TVL to multi-megapixel.

LG Life's Good

NEW! LG 1080p 12x Outdoor Network PTZ Camera

Built-in ICR (true day/night)

12x ZOOM

3 YEAR WARRANTY

- 1/2.8" Progressive Scan CMOS
- High Definition Video Quality: Up to 1920 x 1080 Resolution (1080p)
- H.264 / MJPEG Dual Codec
- 30 fps @ 1080p Resolution
- 12x Optical Zoom and 12x Digital Zoom
- Panning Range & Speed : 0˚~360˚, Max. 500˚/Sec
- Tilting Range & Speed : 0˚~180˚, Max. 500˚/Sec
- True Day/Night (ICR)
- Wide Dynamic Range with ACE (Adaptive Contrast Enhancement)
- Audio Input and Output
- Alarm Sensor Inputs and Outputs
- SD Card Slot (supports up to 32GB SDHC)
- Operates with hPoE or 24 VAC
- LG Ipsolute VMS Suite, Mobile Application (iPhone, Android)
- IP66 Vandal-proof Housing

Comes with 3-year warranty and 30-day money-back guarantee.

New! LG Monitors

See Page 43

D1 Indoor IP PTZ Camera

- 1/4" Interlaced Scan CCD
- Day and night function with Sense Up
- Minimum illumination 0.07 lux at F1.8
- 10 x optical zoom
- 25/30 fps at full D1 resolution
- Selectable MPEG-4 SP, MJPEG compressions
- Two-way audio
- Video motion detection
- Digital input and digital output
- Powered by PoE Class 3 / DC 12V
- Comes with a one-year warranty

Megapixel IP D/N PoE Box Camera ACM8511 **$756.00**

ACTi Connecting Vision

NEW! 4-Megapixel D/N Hemispheric Network Dome Camera

ACTi Connecting Vision

- 1/2.5" Progressive Scan CMOS
- Day and night function with mechanical IR cut filter
- Minimum illumination 0.06 lux at F2.8
- 180°/360° panorama and ePTZ view
- Built-in f1.05 mm / F2.8 Megapixel Fisheye lens
- 6 fps at 2032 x 1920 resolution
- Selectable H.264, MPEG-4 SP, MJPEG compressions with dual streaming
- Up to 6 cropped regions as independent channels
- Two-way audio
- Video motion detection
- Digital input and digital output
- SDR (Superior Dynamic Range)
- 2D+3D Digital Noise Reduction
- Powered by PoE Class 3 / DC 12V

4-Megapixel D/N Hemispheric Network Dome Camera KCM-3911 **$873.00**

Alliance-pro Day/Night Vandal Dome Cameras

IQinVision smart camera systems

- Resolutions up to 5 MP
- H.264 Main profile + MJPEG Compression
- 30 fps @ 1080p, 10 fps @ 5 MP
- Two-Way Audio
- Lightgrabber™ II Low-light Feature
- Day/Night Movable IR Filter
- Power Over Ethernet, 12-24 VDC, 24 VAC
- IP66/NEMA 4 Outdoor Enclosure included in Exterior cameras
- Outdoor Vandal Resistant Dome
- ONVIF and PSIA Compliant
- Wide Varifocal Lens

Web Smart 8-Port Gigabit PoE Switch

With 2 1000BASE-T/SFP Combo Ports

- Security Features: Access Control List, D-Link Safeguard Engine™ and Port Security
- Intuitive Management: SmartConsole or Web-Based GUI, Built-in MIB Browser for SNMP, D-View 6.0 Module Support and Compact CLI through Telnet
- Supports Auto Voice VLAN and DSCP QoS for VoIP Application
- Web Smart 8-Port Gigabit PoE Switch with 2 1000BASE-T/SFP Combo Ports
- Fanless Design: Provides Continuous, Reliable, Silent and Eco-Friendly Operation

Web Smart 8-Port Gigabit PoE Switch DGS-1210-10P **$425.99**

8-Port Gigabit Ethernet PoE Switch (4-Ports PoE)

Supply PoE to devices with ease!

- Metal Chassis, Desktop or Wall Mount
- 4 802.3af PoE Ports, QoS, D-Link Green
- Auto MD/MDIX media interface exchange
- 16 Gbps switching capacity

8-Port Gigabit Ethernet PoE Switch DGS1008P **$179.99**

Analog Cameras

Which type of camera is right for you?

Dome

- Less conspicuous than other security cameras
- "Smoked" dome option means lens angle is obscured
- Great for high-risk, short range, or vandal-prone areas

C/CS-Mount

- The most versatile security cameras because you can put on any lens of your choice

Bullet

- Discreet - small & unobtrusive, they are great for upscale retail environments
- Versatile - many have waterproof housings, so they can often be used indoors or out

PTZ

- PTZ stands for "Pan/Tilt/Zoom"
- You can cover larger areas with a single PTZ camera
- It's the camera of choice for high-risk stores
- Can be programmed to go on a virtual "patrol" and to zoom in on certain areas or valuable items when alarms are triggered

NEW! High Resolution Day/Night Domes with IR Illuminators

LG Life's Good

Includes 65 Feet Smart IR Range

- 650 TV Lines (Color) & 700 TV Lines (B/W)
- 1/3" CCD
- LG XDI-V DSP
- 2.8-11mm Varifocal Lens F1.2
- 8 Smart IR LEDs @ 65 Ft Illumination

30' IR Illuminator	IR14	30'	60°	6" × 5" × 1"	$79.99

INFRARED ILLUMINATORS

ARE A TOOL TO CONSIDER

1. PERFECT FOR COVERT APPLICATIONS

Infrared illumination is invisible to the human eye, but perfectly visible to most video cameras. So if your goal is to catch a bad guy in the act – and they usually strike in the darkness – then infrared can be an invaluable tool.

2. SAVE ON ENERGY COSTS

Infrared illuminators typically use LEDs to produce illumination. In comparison to incandescent lighting (normal light bulb), LEDs use 80% or less energy while still producing the same level or sometimes greater intensity of light.

3. SAVE EVEN MORE OVER TIME

Infrared illuminators are usually equipped with photocells that turn IR lighting on/off, giving you IR lighting only when necessary. Also, LEDs last between 20,000 and 25,000 hours of constant use, compared to a normal light bulb of 700 to 2000 hours.

4. IMPROVE LIGHT PENETRATION

Infrared light penetrates atmospheric haze better than visible light. Underwater researchers have long been leveraging this unique benefit to help cut through murky waters. Similarly, areas with high humidity and pollution can experience better video quality using infrared.

5. DECREASE LIGHT POLLUTION

In the past, 24/7 security typically meant lots of lights placed around houses, yards, parking lots, and driveways. Today's infrared devices offer you the perfect blend of surveillance without punishing your neighbors with glaring lights.

HDcctv/HD-SDI Cameras

Compatible with Megapixel Lenses on page 17

The demand for high-resolution video is growing in the video surveillance equipment market and beyond. Nothing compares to the video quality of true high definition (HD) video. HDcctv/HD-SDI technology not only delivers incredible resolution and image quality that is far superior to analog CCTV, an HDcctv video system provides a cost-effective video surveillance solution that's easy to integrate, implement and install.

HDcctv/HD-SDI & Cabling

HDcctv/HD-SDI systems allow you to utilize existing analog CCTV coax cabling as long as the cable distance is sufficient for HDcctv/HD-SDI video signals (RG/59/RG6 and RG/11 or fiber optics).

HDcctv/HD-SDI video cameras are point-to-point, and you can use existing coax cables to send the video feed directly from the camera to the recording device or DVR without the need for encoders or an existing network.

When To Consider HDcctv/HD-SDI

The benefits of HDcctv/HD-SDI are far-reaching, and almost everyone in every type of industry can benefit from implementing HDcctv technology.

If You Want Better Resolution

If you need higher quality images than analog CCTV, HDcctv/HD-SDI will be a big benefit to you when it comes to image quality. HDcctv delivers high-quality, detailed HD resolution to support your business needs. You have the ability to zoom in during live video and playback modes to focus in on area of interest with exceptional clarity and crisp detail.

If You Want To Cut Costs

If you have budget constraints, HDcctv/HD-SDI hybrid systems provide a cost-effective solution.

A hybrid HDcctv/HD-SDI system allows you to utilize existing analog CCTV equipment, yet provides the ability to utilize HDcctv cameras and features as you need them.

3 YEAR WARRANTY

3-year warranty on all BLACK HDcctv/HD-SDI cameras and DVRs!

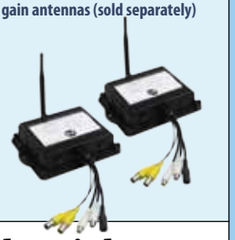
- 300' Line of Sight Range
- Digital Wireless frequency Hopping Technology
- 3db Omni Directional Antenna
- Operating Frequency Band 2.400GHz-2.4835GHz

2.4GHz Digital Wireless Link Kit DVL24 **$149.99**

High-Powered Weatherproof TX/RX

- Encased in a NEMA 4 weatherproof housing
- FCC Part-90 Approved
- Transmitter Power 100mV Includes TX receiver, 2 power supplies, cables and staging antenna
- Dynamic Frequency Allocation to avoid interference
- Up to 15 miles when used with high gain antennas (sold separately)



Weatherproof 2.4GHz TX/RX DVL24-WR **$199.99**
Weatherproof 2.4GHz TX/RX with PTZ controls DVLX24-WR **$499.99**

2.4GHz Digital Video Link Kit Camera & Receiver

Great for spot monitors... or ADD a wireless camera to your existing system!

- 420 Lines Day/Night
- 30' IR Range
- 500' Line of Sight Range
- 3.6mm Lens
- Weather-resistant IP55 housing
- RED LED Deterrent Light Built-in
- 3db Omni Directional Antenna
- Digital Wireless frequency Hopping Technology

BEST SELLER!

2.4GHz Digital Video Link Kit Transmitter & Receiver WLS2400KIT **$199.99**

Wireless Transmission Systems

Send Video up to 700 Feet!

- 4 Channel 2.4 GHz FCC-Approved Part-15
- Transmitter 2.5"H x 2.5"W x 0.7"D
- Receiver Only 6.1"L x 3.1"W x 1.6"H
- 12VDC 300 mA Power Draw
- Longest Low-Cost 700' Range Available
- Includes Power Adapters & A/V Cables

Mini 2.4GHz 700' A/V System WLS2404 **$119.99**
Mini 2.4GHz 700' Weatherproof A/V System WLS2404WP **$299.99**

WIRELESS VIDEO

BENEFITS AND THINGS TO CONSIDER BEFORE YOU PURCHASE

There are occasions when running cables is simply not the best or most convenient option, which leads people to consider wireless video. Here are the top reasons why you should consider wireless:

EASE OF INSTALLATION

Wireless transmissions perform the same job as wired transmissions; both convey information from point A to point B. The difference with wireless is that there is nothing to see, nor cable to pull — it's invisible! This, of course, makes the installation of a video security system fast while maintaining a professional appearance.

TEMPORARY NEEDS

Wireless video security systems are an excellent choice when individuals or businesses need to temporarily monitor a room or specific valuables. It allows people to secure their valuables without making any permanent modifications to their home or business. This makes a wireless system the best choice for CCTV surveillance of rental properties or apartments.

COVERT APPLICATIONS

Whether it's body-worn, a rural scene, or investigations in the office; wireless video is almost always preferred over using cabling for covert use. Wireless video minimizes the chance of detection during installation and monitoring, and reduces the chances that the suspect(s) will discover the gear. In many cases, wireless video is the only option for covert needs.

LOWER COST

Even pricey, high end video transmitters can easily pay for themselves when both material and time is factored in. Examples where professional class transmitters and receiver provide immediate pay back are parking lots and outbuildings that require security cameras.

In these examples, the cost of the labor, trenching tools, cable and new surface material can easily surpass the cost of wireless video equipment.

New! IP Wireless Bridges

The evolution of 802.11n and MIMO (multiple input multiple output) technology has made wireless IP video a workable solution. The WIP series product line provides up to 80Mbps of full duplex bandwidth which allow for robust and scalable wireless network video solutions. Call us to find out more!

Wireless that Works!

Outdoor Solutions

TOP FLEXIBILITY

NEW! 5.8 GHz Outdoor MIMO Wireless Access Point

- 5 GHz frequency band
- 802.11 a/n modulation
- 2 x 2 MIMO
- Dual N antenna connectors
- IP65 weather rating

5.8 GHz Outdoor MIMO Wireless Access Point WIP5800N-WR **$114.99**

POWERFUL CLIENT DEVICE

NEW! 5.8 GHz 18 dBi Outdoor MIMO Wireless Access Point

- 5 GHz frequency band
- 802.11 a/n modulation
- 2 x 2 MIMO
- Integrated dual polarized 18 dBi antenna
- IP65 weather rating

5.8GHz 18dBi Outdoor MIMO Wireless Access Point WIP5818N-WR **$139.99**

POWERFUL BASE STATION

NEW! 5.8 GHz 90 Degree Outdoor MIMO Wireless Access Point

- 5 GHz frequency band
- 802.11 a/n modulation
- 2 x 2 MIMO
- IP65 weather rating
- Integrated dual polarized 20 dBi 90 degree antenna

5.8 GHz 90 Degree Outdoor MIMO Wireless Access Point WIP5890N-WR **$199.99**

Indoor Solutions

NEW! 5.8 GHz Indoor MIMO Wireless Access Point

802.11 a/n modulation, 2 x 2 MIMO & Dual 5dBi Omni Antennas

- 5 GHz Frequency Band
- 802.11 a/n modulation
- 2 x 2 MIMO, Dual 3dBi Omni Antennas
- 3.3" (h) x 4.8" (l) 0.78" (h)

This small but robust, high-performance 5 GHz access point is equipped with an extreme output power (up to 29 dBm) 802.11n MIMO radio which allows communicating effectively with older 802.11b/g equipment together with latest standards in wireless devices. The robust software engine features a user-friendly Adobe Flex-based GUI with instant changes, including useful installation tools like site survey, antenna alignment, delayed reboot, spectrum analyzer, ping, and trace route.

Comes with a 1-year warranty and 30-day money-back guarantee.

5.8 GHz Indoor MIMO Wireless Access Point WIP5800N **$114.99**

IMPORTANT NOTICE ABOUT WIRELESS DEVICES

Many electronic devices use wireless frequencies, including phones, microwaves, and routers. A dedicated frequency is not always available, which may impact the successful functioning of your wireless solution. Before choosing a wireless system please call us to discuss your environment.
